

Indo ArcGIS Pro Standard with Extensions on Cloud (GPU)

Indo ArcGIS is the one-stop destination for all your GIS needs. Powered by industry-leading ArcGIS technology, Indo ArcGIS offers out-of-the-box solutions and data products for solving the most pressing social and business challenges.

Key Features

Integrate multiple data sources to make smart maps with cartographic and design standards. Access and add ArcGIS Living Atlas content for India and the world in your maps.

Data management: Ensure data integrity with a complete set of tools for storing, editing and managing spatial data including big and realtime data.

Powerful tools to manage and analyse

imagery: Work with all kinds of images – drones, satellites, aerial, lidar, and more

Analytics and Data Science: Use scientific analytical tools on 2D, 3D, and 4D data to identify patterns, make predictions, and answer questions.

Share Your Work: Author, discover and share content and web maps using Indo ArcGIS Pro.

Key Benefits of Indo ArcGIS on Cloud

- **GPU enabled** cloud infrastructure and storage bundle to run Indo ArcGIS Pro on Cloud.
- Access to **ArcGIS Pro extensions***
