

StreetMap Premium

Quality street data behind your firewall
for map display, geocoding, and routing

What is Indo ArcGIS StreetMap Premium?

Indo ArcGIS StreetMap Premium provides offline, enriched street data for use in ArcGIS software to deliver high-quality and multiscale cartographic map display; accurate geocoding; and optimized routing, driving directions, and network analysis. StreetMap Premium is an out-of-the-box solution designed specifically for use with ArcGIS. It can be deployed rapidly on premises behind your firewall without the need for any data preparation.

What's included in Indo ArcGIS StreetMap Premium?

High-Quality Map Display

See analysis results on beautiful maps, at all scales, down to a granular level of detail. Make use of high-quality, consistent, ready-to-use maps and prerendered, presymbolized data layers.

Ready-to-use Geocoding

Search and display your addresses on a map. Convert your addresses and place-names into coordinates and put them on a map accurately. StreetMap Premium offers a complete geocoding experience, including geosearch, batch geocoding, and reverse geocoding.

Ready-to-use Routing and Network Analysis

Generate optimal routes, turn-by-turn directions, and perform intelligent network analysis to maximize efficiencies and minimize routing and analysis costs. Solve complex real-world problems with an advanced set of tools.
